

The BS in General Studies is designed to meet the needs of students with varied interests and diverse academic backgrounds. As many as 94 credits may be transferred to IWU toward this degree program, leaving only 30 credits to be taken to earn a BS in GS. Until the Academic Advisor and Registrar have the opportunity to evaluate each student's transcripts, they are not able to determine what courses are necessary for successful completion of this degree program. Becky Luckey, the Director of the General Studies program, welcomes the opportunity to evaluate each interested student's transcripts and discuss his or her unique interests for a concentration. Here is a list of pre-approved concentration areas. Individualized concentrations are available with approval of GS Faculty.

Business  
Communications  
Criminal Justice  
Computer Information Technology  
Entrepreneurship  
Fine Arts  
History  
Human Services  
Liberal Arts
